

NYE Pub Run – 6.2ish miles

Turn left out of The Flying Shuttle

Head along the road (A1307) until just before the entrance for The EpiCentre and cross over the road

Head down the small slope, turning right onto the footpath just before the five-bar gate

Cross the (slippery!!) footbridge and follow the footpath across the middle of the field

At the field edge turn right and begin to go gently downhill, turning left into the hole in the hedge after about 50 meters or so

Head straight up the grassy field edge (hedge on your right) towards the single tree. Turn right at the tree and follow the footpath cut across the field. Turn left once you reach the field edge and continue uphill

At the top of the hill go straight ahead following the footpath cut through the field that takes you downhill. Join the gravel track at the end and head towards the road

Turn right onto the road then take the first left onto Skippers Lane

Follow Skippers Lane for just over one mile, passing the few houses on either side and the windy bit of road and then turn right onto a stony track (next to Cadges Wood)

Follow it downhill to the junction of footpaths and take the right hand one

onto a grassy path (hedge on your left) and continue straight ahead

After half a mile or so there is a short left turn then right turn onto the gravel farm track. Keep going straight ahead (ignore the gravel drive going uphill on your left). After another half mile or so there is another short right then left wiggle to take you back onto a grassy footpath.

Follow this straight ahead until you end up on the narrow footpath running alongside the right of the church

Turn left at the road

At the T junction turn left and head up the first hill (on the road to Thurlow)

Turn right onto the footpath after the 30 mph sign

Follow the grass track. Turn right where a gravel track crosses the footpath then left and over the narrow footbridge. Continue straight ahead along the track until you reach the bottom of Hales Barn Road

Turn right and then left on the roundabout. At the next roundabout take the second exit to take you towards Sainsburys

For just under 10K you can head straight along the road past Sainsburys then right on the roundabout to take you back to The Flying Shuttle

If you want more miles you can enter the floodpark and do a lap or 2 or 3.... before heading back
